Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Visits the HDI Prediction website • Reads project information • Enters country indicator values	• Submits the input form • System processes the data • Machine learning model runs prediction	• Views predicted HDI category • Compares results • Uses prediction for analysis or planning
Touchpoint <i>What part of the service do they interact with?</i>	• Home page • Input form • Instructions section	• Submit button • Flask backend • Prediction model	• Result page • Prediction message • Analysis output

Customer Thought <i>What is the customer thinking?</i>	• Is this system easy to use? • What values should I enter? • Will the prediction be accurate?	• Is the model processing correctly? • How long will it take? • Is my data being analyzed properly?	• What is the predicted HDI category? • Can I trust this result? • How can I use this information?
Customer Feeling <i>What is the customer feeling?</i>	• Curious • Interested • Hopeful	• Focused • Expectant • Slightly anxious	• Relieved • Confident • Satisfied

Process Ownership <i>Who is in the lead on this?</i>	• Frontend/UI module • User input handling • Web interface	• Flask backend • Data preprocessing module • Machine learning model	• Prediction result module • Output display • Reporting and analysis
Opportunities <i>How can we improve this stage?</i>	• Add input validation • Provide example values • Improve UI design	• Reduce processing time • Add progress indicator • Improve model accuracy	• Show confidence score • Add graphs and charts • Allow report download
