Maximum Marks	2 Marks

Data Flow Diagram

Create a Data Flow Diagram (DFD) to show how data moves through your system - between external entities, processes, and data stores. Use the symbol legend below as a guide.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	User (Researcher/Government Officer)
Rectangle with numbered header	Process	Input Collection, Validation, Prediction, Result Display
Rectangle (solid fill, no number)	Data Store	HDI Dataset, Trained ML Model
Labeled arrow	Data Flow	Input Data, Prediction Result

Example

The diagram below illustrates how the symbols above come together to form a complete data flow diagram.
