

Solution Architecture

Date	11 July 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	5 Marks

Solution Architecture Diagram:

Provide a high-level visual representation of your solution's architecture. Use the structural layout below as a template to map out your Presentation Layer, Application Layer, and Data Layer. Fill in the specific technologies and components for your project directly into the boxes to create your architectural diagram.

Component Description Table

Component Name	Description / Role in Architecture	Technologies Used
<i>Presentation Layer</i>	<i>Provides the user interface for entering HDI indicators and displaying prediction results.</i>	<i>HTML5, CSS3, Bootstrap</i>
<i>[API Gateway]</i>	Receives user requests, processes them, and communicates with the prediction model.	Flask
<i>[Microservices]</i>	<i>[Performs data preprocessing, loads the trained Machine Learning model, and predicts the HDI category.]</i>	<i>Python, Scikit-learn, Pandas, NumPy</i>
<i>[Database]</i>	<i>Stores the HDI dataset, trained model, and preprocessing objects.</i>	<i>CSV, Pickle (.pkl)</i>
